THE DAY'S DOINGS.

MORNING.
Continuation of Great Credit Sale, at the store of Messrs. H. Hackfeld & Co., at 10 A. M., by Mr. E. P. Adams.

AFTERNOON.
Directors meeting Y. M. C. A. at Castle & Cooke's at 1:30.

EVENING.
Improved Order of Red Men: At their Wigwam, at 7:30 p.m.
Polynesian Encampment, at 7:30.
Musical Society at the Music Hall.

THERE will be a meeting of the Cabinet Council to-day.

ANOTHER run-away on Beretania street yesterday evening.

Y. M. C. A. meeting lapsed last night for want of a quorum.

WE are indebted to Messrs J. M. Oat & Co. for files of late Eastern and San Francisco papers.

CAPT. Roper will probably eat his Christmas dinner in old England. He says he will be glad to be rid of the "cussed Yankees."

PRESIDENT Arthur has vetoed the River and Harbor Bill. The Congress and Senate have adjourned sine die. President Arthur will visit San Francisco shortly.

The number of runaways on Wednesday again warns us of the careless habits of drivers of vehicles. There is no safety for passengers on any of our streets.

A suggestion from Hawaii: This Egyptian pilikia will not be ended satisfactorily till we send the Hawaiian army and fleet to put an end to it. The fleet consists of 4 double and 150 single canoes.

FROM Humboldt we learn that the bktn Monitor, with lumber, sailed for Mahukona, on the 9th. The Mary Dodd was to follow on the 10th, for Honolulu. The Forest Queen, for Honolulu, and the M. W. Smith, for Mahukona, with redwood, are expected to leave Puget Sound this month.

ON the 20th of June the French Legislature passed, by a large majority, an act authorizing the sale of the Crown jewels. It is suggested that if Colonel Judd will hurry up he may secure a few genuine Crown jewels, and possibly a Crown. But we think the French Crown is not a safe one to get, as it has a knack of falling off, much to the wearer's discomfort. They also passed the long-talked of Divorce Act.

YESTERDAY we reported a runaway as probably being H. R. Macfarlane's team. The following are the true facts of the case: Mr. Widemann's team, in charge of a skilful driver, was coming along the Wai-kiki road, when a Chinaman, in a cart, deliberately ran into it, in spite of warning, and took the hind wheel off. This, of course, frightened the horses, and they ran away. We trust the Chinaman will be punished as he deserves.

COMPLAINTS are rife of the cruelty to animals practised at the Pound. Some animals were kept from Thursday afternoon till Saturday with scarcely any food, and as there is no grass in the Pound the poor dumb animals could neither satisfy their wants nor signify them to others. We think some notification to owners should be given when animals are in the Pound—say, a weekly list published in each of the papers. And a proper supply of food ought to be obtained and given regularly to every animal in the Pound.

The old saying "go abroad to look for news of home," is curiously exemplified in the following paragraph clipped from the S. F. Bulletin of the 9th:—

"Honolulu is to be lighted by electric towers. The telegraph is in general use throughout the city, and is being carried around the Island of Oahu, and extended on the other Islands. An inter-Island cable will shortly connect all the Islands with the capital. The sanitation of Honolulu is liberally provided for, and a plan for the thorough cleansing of the city will shortly be carried out."

LATE FOREIGN NEWS.

Alexandria.
Aug. 3.—A scare took place last evening. There is a clump of trees on the fresh water canal, about in the center of the British line. The outposts, which were guarded by a company of the Sixtieth Rifles, were duly posted there last evening, and cautioned by Major-General Alison as to the necessity of maintaining absolute steadiness, and were ordered, in case of an attack in force, to fall back in order on a barricaded house by the side of the canal. These instructions were apparently fully understood and the General left satisfied. About two o'clock in the morning the enemy suddenly appeared on the left of our outpost with infantry and cavalry. They had approached very rapidly, and unobserved, and before our men had time to check their advance, they charged the clump of trees at a great pace. The Rifles fired a single volley and then broke and ran along the bank of the canal. Their outlook would seem to have been very defective, and worse than this, the still retreating troops neglected all orders concerning the rallying point and never stopped until they had reached the fortified water works on a hill about a mile distant. Four of them even ran till they reached the camps. They spread all sorts of ridiculous rumors, such as that they had lost all their comrades, and had last seen Major Ward surrounded by the enemy, and similar nonsense. A company instantly moved forward to the bank of the canal. The enemy had apparently not followed the fugitives far, but had taken the rifles they had thrown away in their flight, and secured their reserve of ammunition.

Aug. 4.—Arabi's force at Katr-el-Dwar is estimated at 70,000. The national meeting on Saturday held at Cairo determine to uphold Arabi.

An unconfirmed rumor is current that the European quarter of Cairo has been fired.

Complete arrangements are made for the occupation of the Meks forts by the naval contingent.

Sir Auckland Calvin, Acting British Consul-General, visited the banks to-day, and warned them against negotiating drafts of the Turkish Government.

Three officials of the Land Mortgage Company, stationed at Kafr-el-Dwar, have been safely escorted to Ismailia, by order of Arabi Pasha. The only European remaining with Arabi Pasha is a Swiss, Minett.

An ironclad train, with a working party on board, has proceeded to repair the railway broken by the Bedouins.

The Porte has informed the Khedive's Government that it has drawn upon it for the expenses of the expedition to Egypt.

There was some firing Wednesday near Pompey's Pillar.

Arabi has forbidden the inhabitants to furnish fresh provisions to Christians on pain of death.

Only skirmishes are expected for the next three weeks.

Yesterday the fifty-pound breach-loader made beautiful practice on the Mareut earthworks at 6,000 yards. Shells were seen to burst right in Arabi's earthworks. Arabi's ostentatious threats to enter Alexandria are believed to be intended to mask his retreat.

Yesterday's engagement is the subject of general comment here. In the opinion of men of high professional experience nothing has apparently been gained to compensate for the heavy loss of killed and wounded.

An armed train started to-day for Mahalla Junction to discover if the rails had again been cut.

The place of yesterday's engagement is named Esbet Kurshid. General Alison states that the enemy's loss was between 200 and 300. One officer of the Mustaphazine regiment and fourteen privates were taken prisoners. They stated that the enemy's force consisted of a battalion of the Second Infantry regiment, 1,200 strong, and 900 of the Mustaphazine regiment, who participated in the June massacre. In order to test them, General Alison offered the prisoners the option of returning to the enemy's camp. They all refused, saying there was great discontent in Arabi Pasha's camp. They say Arabi sent as prisoners to Cairo some officers who asked what they were fighting for.

The prisoners reckon the rebel force at Kafrel-Dwar at 16,000. The enemy's first line was not entrenched, but was sheltered partly by brushwood and houses and partly by a barricade erected with carriages taken from Alexandria.

No Indian troops, but only the marines and sailors from British ships lying in the roads were disembarked at Suez. An immediate stampede of Egyptian troops and the Arab population took place. From the decks of the steamers crowds of natives were seen hurrying across the desert. Trains were crowded even to the roofs of the carriages. It is reported at Ismailia that Arabi Pasha has ordered 4,000 troops to approach the canal.

Aug. 7.—The Times says it believes it represents the matured opinion of the nation in protesting against the Turks being permitted to come to Egypt, no matter what restrictions they may ultimately consent to.

Aug. 8.—The Times in a leading article says: The Egyptian situation will not be complicated by the policy of the new French Ministry, which is decidedly in favor of the policy of Gambetta, but knowing that the opinion of the country is against intervention it is impossible to suppose that Gambetta will attempt to carry out his Egyptian policy. The Cabinet, the Times declares, is not a strong one, nor can the friends of republican institutions in France look upon it with much satisfaction.

London.
Aug. 3.—An European official at Smyrna has warned his government that a man-of-war is necessary there, as the slightest quarrel may lead to serious disturbances. The Indian Government has taken to date 29 steamers for the Egyptian services.

Sir William Jenner and Sir James Paget have been consulted in regard to General Sir Garnet Wolseley's ailment, and decided that he had better sail for Egypt and avoid the fatigues of the land journey. Gen. Wolseley, on going on board yesterday, had his head muffled, and looked far from being well.

Aug. 6.—The official report of Admiral Seymour concerning the encounter with the enemy by the reconnaissance party at Mahalla Junction Saturday, is as follows: The force consisted of 200 men of the Naval Brigade, with one forty-pounder and two nine-pound guns, under Captain Fisher; 1000 marines, under Colonel Tuson; half a battalion of the Thirty-eighth and Forty-sixth regiments, and all of the Sixtieth regiment. We had a skirmish with the enemy, who were 2,000 strong, with six guns and six rockets, from half-past five until seven o'clock in the evening. The total casualties to the Naval Brigade and marines was two killed and twenty-two wounded.

The following is General Alison's report: Persistent native reports having existed during the past few days that Arabi Pasha was returning from Kafrel-Dwar upon Damahour, I determined upon a reconnaissance to ascertain clearly whether Arabi still held his original position. The strong left column commenced the advance at 4:45 p.m. from the advance pickets of the Ramleh lines, moving by both banks of the Mahmoudieh Canal, and soon came into action with the enemy, who was strongly posted in a group of palm trees on the eastern side, and in strong defensible houses and gardens on the other side. Their positions were carried. At this time Lieut. Vyse of the Sixtieth regiment and one soldier were killed. The enemy then took up a second position half a mile in the rear, upon the east bank of the canal among high crops

and houses and behind the irregular banks of the canal. From this position the enemy were driven with great loss.

I accompanied the right column myself. As soon as the enemy observed us they opened fire with artillery. I pushed on as rapidly as possible till we reached a point where the railway approached the nearest to the Mahmoudieh Canal, and then opened a most terrific fire upon the enemy lying the banks of the canal. Two nine-pounders were dragged on to the embankment and came into action against the enemy's guns, the forty pounder firing over our heads against a point where the enemy's forces were beginning to appear. I now threw forward two companies to a car house near the canal, and followed up this move by throwing four companies still more to my left, upon the bank of, and across the canal, thus attaining the position I wished, and thus forming a diagonal line across both the canal and the railway. The enemy retired slowly before us. Five of their seven-pounders and nine-centimetre guns were speedily got under by our artillery.
